Send a Letter by Aero. Juveniles Playing Good Baseball

A trip by aeroplane from Lethbridge to Ottawa, including stops at Winnipeg, Weyburn, London, Toronto, Peterborough, Brockville, Minot, Valley City, Fairmont, St. Paul, Broomfield, Madison, Chicago, Jackson City and Detroit, en route is being arranged to commence about the 21st of June. The Post Office department has been asked to encourage the venture by dispatching a letter mail from Lethbridge to the above points on the flight in question and have agreed providing those sending mail matter assume the risk. The requirements for this mail are:

(1) That letters be enclosed in special envelopes having the words "via aeroplane" printed on them. These envelopes may be obtained from the Lethbridge Board of Trade for the sum of \$1.00 each.
(2) The usual postage to be affixed on the address side of the envelope.

The Didsbury Juvenile section of the Rosebud Baseball League are putting up some good games in their swatfests with Olds, Carstairs and Crossfield. Mr. E. E. Freeman of the seniors has been coaching them for sometime and the boys are showing good form through their constant practice. Some of the plays that they have made lately have been worthy of oldsters at the game.

Aylmer Liesener is President and Captain and Orville Geiger is manager of this aggregation of ball swatters and all games are played on Saturday afternoons. The present schedule ends on July 15th. Come out and see the lads play ball.

Wheat Board Question Will Be Taken Up After Budget Debate

Ottawa.—The question of transfer of powers of legislation including a wheat board was the subject of discussion by Hon. H. H. Stevens. Mr. Stevens pointed out that the present 1925 question to a special committee was made of March 27, 1925. It was a part of a report. A report was made by Mr. Stevens. It involved legislation by Parliament and also by provincial legislatures in order to transfer of handling this year's wheat crop. Yet the resolution had been placed to floor on the entire powers for seven days. Mr. Stevens wanted to know what was the reason for delay and whether it had anything to do with the somewhat extraordinary action by the committee of Priding had in rescheduling a former motion.

The Prime Minister replied that there was no intention to delay the discussion upon the wheat board after the budget debate was finished. Just as soon as the end of that debate was reached the movement would be glad to take up the consideration of the report of the agriculture and colonization committee.

Mr. Stevens inquired whether it

Proper treatment is a vigorous rubbing of the chest, neck and sore side with good old Serravallo. This wonderful liniment sinks into the tissues where the pain is seated and gives instant relief. That catch disappears, all sense of constriction goes quickly. Just try Serravallo for chest tightness, coughs, colds and soreness. It's a wonderful liniment, saves the whole family from pneumonia, influenza and should be in every home. Large bottles, 50c. at all dealers.

It was not unusual to delay the consideration of business which each day preceded the budget debate on the order paper.

The Prime Minister replied that before this report appeared on the order paper he had indicated that it was the intention to give precedence to the budget debate. It was thought desirable to carry that arrangement through.

Wheat Board Certificates

Many Participation Certificates Are Still Outstanding

Ottawa.—There are yet nearly 7210,000 worth of wheat board participation certificates outstanding, according to a report tabled in the House by Hon. J. A. Robt. Minister of Trade and Commerce, in answer to a question asked by C. C. Davies, Progressive member for North Battleford. A total of \$500,000 was turned over to the Federal Government by the Canada Wheat Board from surplus account. Mr. Davies was informed, and also \$175,000 from participation certificates. The total value of outstanding participation certificates on May 22, 1922, was \$205,526.57.

Applications for payment on outstanding participation certificates are still being received and are being paid by the Canada Wheat Board, it was stated. The questions when such payments will be discontinued have not yet been considered.

Mr. Davies was also informed that the Canada Wheat Board had recommended that the amount of \$100,000 transferred from surplus account should be distributed to the provincial governments pro rata, on the basis of the quantity of wheat delivered to the board by the producers in each province, such money to be used for the immediate relief of distressed farmers in the various provinces, and that any money remaining on account of unpaid certificates should be used for research work, particularly for the prevention of black rust in wheat.

Policy Of Moderation Says Lloyd George, In Dealing With Germany

London. With Germany undaunted, Premier Lloyd George had planned to make a brief statement on reparations in the House of Commons, but when John Robert Clynes, Labor member, opened the debate and attributed the present difficulties to the Government's election pledges of 1918, the Prime Minister launched into a lengthy defense of the reparations commission and the treaty of Versailles.

Mr. Lloyd George praised the German attitude towards the reparations commission and said so long as she was not defiant, Germany could count on British sympathy and understanding of the difficulties in meeting the treaty conditions. He declared, however, that there was no cause for disagreement between France and Great Britain for should Germany refuse to attempt to fulfil the commission's proposals, Great Britain's place would be at the side of the Versailles signatories despite the misrepresentations which were being made.

Great Britain believed in the traditional policy of moderation and fulfillment, continued the Prime Minister, and he gave warning that isolated action on the part of any one of the allies would be disastrous to the entire settlement.

It is the policy pursued after Waterloo toward France when Prussia and Russia and other victors argued that France be trampled," said Mr. Lloyd George. "The Government in that day refused to commence such a policy; we are pursuing the same course. But if Germany is defiant, if she should say this treaty we decline to carry out, it would be different. A German policy of non-fulfillment would be a policy of immediate disaster."

It is not a question of France acting alone, if there is defiance of the

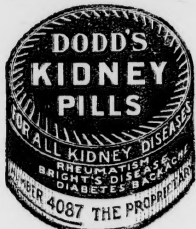

Versailles treaty. We are signatories to the treaty, which the House of Commons ratified. We are committed to it. In spite of all misrepresentations we still stand for the policy of moderation and fulfillment."

Prohibition is Making Good

(Published by Request)

The temperance people of Alberta recognize that success is now in sight as a result of elimination of wholesale warehouse stocks and a better understanding of responsibilities of both the federal and dominion governments, and must now rally to the support of the Liquor Act. A few years ago the friends in Alberta who realized the havoc and wreckage left in the trail of the licensed liquor traffic, decided to take steps to eliminate the traffic and restore if possible some of the wreckage. Have they succeeded? To answer the question let us look backward. We have made such wonderful progress that we are dissatisfied with our own results and instead of consolidating our forces for further victories we are in danger of defeat by our impatience. In other words, some have been expecting a miracle to be achieved by legislation and are not satisfied with normal progress.

The struggle holds that the traffic had on Alberta is realized when we discover that in 1915 with an approximate population

of 475,000 there were 250 licensed bars, 11 club licenses, and three dining car licenses, a total of 264 licenses, or an average of one license to every 1800 of the population. To serve this retail trade there were 51 licensed wholesale liquor stores, seven breweries and 22 travelling salesmen. To serve the public there were 427 bartenders. It is fair to say, and it is acknowledged by all, that Alberta at that time had one of the best Liquor Licensed Ordinances in existence.

We are quite safe in saying that it was the continued abuse of the license privileges that created the demand for the abolition of the whole booze traffic. What abuse you say? Why, selling to boys under twenty-one, selling after hours, selling on Sunday, selling to drunken men, selling to interdicts. This is the record of lawlessness in this respect as recorded in the provincial archives for 1915: Selling liquor without a license, or just common ordinary bootlegging, 751 convictions; selling liquor to interdicts by licensed persons, 37 convictions, and 120 interdicts fined for purchasing illegally.

The bootlegger was much in evidence in the early days and we claim is not a product of prohibition. The total output of the seven Alberta breweries for 1915, and practically the

whole production was consumed in Alberta, amounted in gross returns to the breweries of 2 million and three quarter dollars. The total sale in the province or, perhaps we better say the total receipts of the liquor business in 1915 was around \$11,000,000. In those days liquor came into the province in carloads, now it comes in, smuggled in in grips and trunks. This ought to completely offset the statement that there is a much liquor drunk in Alberta as ever.

Some source of supply is continually giving out the information that crime has increased and drunkenness has increased under prohibition. Here are a few facts, and you must bear in mind the continued increase in population. Convictions for drunkenness in Alberta for 1914: 5710, for 1915, when the Licensed Victuallers' Association took it into their hands to assist in law enforcement and called up on all bar tenders to make a special effort to clear up this abuse of drunkenness, the number dropped to 2802. In 1916 the last six months under prohibition, this number 'dropped' to 1809, and in 1917, the first full year under the act, the convictions dwindled to 391 for the whole province.

This wonderful result is claimed by some to be partly the result of the war and the going overseas of so many of the men. We do not admit this, as we think it is a reflection on the class of men who offered their lives for their country.

Nineteen eighteen, the last year of the war, the convictions began to show an increase and the total for the province went up to 825. It will be remembered that the federal order-in-council stopping all importation remained on until January 1st, 1920, and notwithstanding that the men were continually coming home, the figures showing convictions for drunkenness remained very low. On January 1st, 1920, the federal government took off the restrictions on importation and from that day convictions began to grow worse; 1920 records show 2,468 convictions for the province, and 1921 shows an increase or a total of 2,898 for the province. This notwithstanding the fact that the referendum of 1920 became effective on February 1st, 1921. The years 1920 and 1921 have brought to the surface the abuse caused by the breweries shipping strong beer in plain bottles.

Let us glance for a few moments at the goal statistics for the province, as there are some who believe the much repeated remark that there is more crime under prohibition than in the old days. In 1915 we had the Lethbridge and Fort Saskatchewan jails as we have them today, but in addition we had the Mounted Police guard room at Mackod and at that time there

LOST—two plain broad mare and grey 3 year old colt, two bay two year olds. All branded B on right thigh. HAZEL HILL, Elbert P.O.

were over thirty women confined there for different offences. The Lethbridge barracks was also used as a jail as well as the Mounted Police guard room at Calgary and Edmonton. Then we had the penitentiary and the Edmonton prison farm. A jail census at that time would have revealed a total population of over 700. At January 1st, 1922 there were 342 men and women behind the bars and the two Alberta jails, and this includes all short term and waiting trial men. Some drop in the total, especially when we consider the increase in population.

The Present Peril

The liquor interests through the medium of a weekly paper, "Liberty," are circulating a petition as follows:—

An act to amend the Liquor Act, being chapter 4 of the Statutes of Alberta, 1916.

1. The Liquor Act being chapter 4 of the Statutes of Alberta, 1916, as amended, is hereby amended by adding to section 2 sub-section (c) thereof the proviso following:

Provided that malt liquors containing not more than three and a half per cent. (3 1/2 per cent.) of alcohol by absolute weight shall not be deemed to be intoxicating liquor within the meaning of the act.

and your petitioners, as in duty bound ever pray.

It is a very innocent looking clause, but if the petitions were a success and the referendum carry, it would practically nullify the effect of the whole act. Take beer of 3 1/2 per cent. alcohol by weight and talk about it in the language of the Liquor Act and we find that it is

7 1/2 per cent. Seven and one-half per cent.

proof compared with our present 23 per cent. privilege. In fact, to quote the words from the columns of "Liberty" 3 1/2 per cent. alcohol by weight has been fixed as being the strength of ORDINARY EVERY-DAY PALATABLE PRE-WAR BEER. The wets themselves admit that beer of 3 1/2 per cent. alcohol weight is the same old intoxicating beer that the opponents of intoxicating liquors voted out in 1915.

Now they have the nerve to come before the people of Alberta and try to convince them that the allowing of this beer privilege would solve the present problem of illicit sale and illicit manufacture.

THE WEEK'S NEWS IN TERSE TERMS

The Next Viceroy

The Earl of Grenard is said to have been selected as the successor to Lord French, as Viceroy of Ireland. Lord Grenard is Catholic and heretofore it has not been possible to appoint a man of that belief to the vice regal position. This is done away with, however, under the new home rule bill, and there is no doubt that the First Lord Lansdowne will be a Catholic.

Will Visit Winnipeg

Sir Oliver Lodge, the famous scientist who has been attracting a great deal of attention by reason of his researches in spiritual matters, is to visit Western Canada shortly.

An Oil Movement

A real oil boom is said to be brewing in the Athabasca and Peace River districts.

Confessed to Murder

A man named William Green was recently arrested in the Provost district in Alberta on a charge of murder, supposed to have been committed in Texas a year ago. Green recently settled in Alberta and was observed to be in a constant state of nervousness. He sought solitude as much as possible, and on the appearance of strangers always had a loaded revolver ready to hand. His actions were so eccentric that they attracted the attention of his neighbors and he was arrested. He is said to have confessed to shooting down a man in the States. He will be taken across the border.

A Great Area

It was recently stated in the House of Commons that the Dominion Government still had vested in them over one billion acres. A great deal of this land is still unurveyed.

Ship Building on the Pacific

Four vessels costing a quarter of a million each, are to be built in the shipyards of Victoria in British Columbia. The Federal Government is loaning money to assist in this work.

Chief of Police Under Arrest

Roy Beavis who was recently appointed Chief of Police of Strathmore, Alta., has been placed under arrest at Calgary on charges of receiving money under false pretences, from the Army and Navy Veterans' Association, of which he has been posing as a war hero with several decorations.

Cattle Breeders Meet

A meeting of the directors of the Cattle Breeders' Association of Saskatchewan was held in the Parliament Buildings last Saturday, to make arrangements for continuing the big sale of pure bred cattle in Saskatoon, which was recently postponed on account of the late seeding weather.

6 Cent Street Car Fare

The Regina City Council have been considering the advisability of either charging 6c street car fare or else putting into effect a one-man system.

Newspaper Commission

There is a resolution before the United States Senate authorizing the appointment of an American commission to confer with Canadian Government officials regarding the restrictions placed on the export of pulpwood to the United States.

Wanted for Bigamy

Agnes Beatrice Clark, a very good looking young woman, supposed to hail from Moose Jaw, was recently arrested at Edmonton by the Alberta Provincial Police. It is alleged that she committed bigamy by marrying a man named Kitchen in 1917, whilst she had a husband named Clark still alive.

Alberta Arbor Day

The Lieutenant Governor in Council of the province of Alberta has issued a proclamation, making Tuesday, May 4th, Arbor Day for the year.

High Price for Argentine Wheat

The highest price for Argentine wheat in the last five years was recorded in the Buenos Ayres market a few days ago.

The Overall Club

An organization has been formed in the United States the members of which pledge themselves to the wearing of overall garments. The idea is to combat the high cost of living in general and the high price of clothes in particular. A movement is under way to have all clothes made in the domestic state convention in Wichita, Kansas, wear hickory shirts and overalls.

A Delayed Letter

A letter mailed in Moscow in 1914 only reached its destination in Calgary a few days ago.

A Utopian Condition

Officials of the employment service of Canada declare that there is no unavoidable unemployment in Winnipeg.

They say any able bodied man can get a job if he wants it. There is a keen demand for men for farm and construction work and two thousand more than are at present available could be placed very quickly.

Bells for the Parliament Buildings

The Senate of Canada has appointed a committee to consider the question of installing bells in the tower of the Parliament Buildings. It is intended to get a chime of silvery toned bells that will be in accordance with the dignity of the building.

Million Dollars Worth of Liquor

A despatch from Calgary says that there is over one million dollars worth of liquor in local bonded warehouses which will have to be disposed of before May 15th, when the provincial act doing away with liquor warehouses comes into effect.

Liquor Referendum in B.C.

A provincial liquor referendum has been arranged to be held in August in the province of British Columbia. Electors will be asked if they desire a continuance of the present prohibition laws or if they wish a system of sale from government stores.

A Blind Soldier and Farmer

Capt. C. H. Barnett, a Winnipeg officer, who lost his sight during the war, is operating a ranch of fourteen hundred acres in the Tisdale district of Saskatchewan. He and his wife have been spending the winter in California, and a few days ago passed through Winnipeg on their way to commence their season's operations.

The Alberta Civil Servants' Increases

The Alberta government has arranged to increase bonuses for civil servants. Married employees will get a bonus of \$25.00 a month until they get up to \$2,000. The bonus to single people will increase to \$10 a month.

Major C. E. Connolly, of Calgary, has been appointed to the command of "A" Squadron of the L.S.H. in Winnipeg. During the war he was Brigade Major of the Canadian Cavalry Brigade, under General Seely.

Oil Field in Manitoba

The recent indications of oil in the Riding Mountains, one hundred and fifty miles west of Winnipeg, have resulted in the formation of a local company with a capital of a quarter of a million for exploration and development work.

Mary Pickford's Divorce

Allegations are made that the divorce which Mary Pickford recently secured from her husband, Owen Moore, is not thoroughly in order and that an application has been made to set it aside.

Sudden-Deaths in Winnipeg

A good deal of concern has been caused by certain sudden deaths which have occurred in Winnipeg, among people of different ages, four of them least are very peculiar, as they have ensued apparently without preliminary sickness.

American Retaliation

It is suggested that retaliatory measures may be demanded by United States customs authorities against Canada on account of restrictions against the export to the States of pulpwood. It is suggested that the United States may curtail their exports to Canada of coal.

Speedy Justice

A remarkable example of speedy justice was given in the province of Saskatchewan last week. Recently a young Canadian named John Yeak, of the Hudson district was accused of murdering a woman, the wife of a neighboring farmer. Her body was found in a well, and for a time suspicion was directed towards her husband. The young Canadian, however, confessed to his father. He was tried by Judge Biglow of Humboldt; the jury was out only forty minutes, and returned with the verdict of guilty. Sentence of death was passed. Just fifteen days elapsed from the commission of the murder until the accused was under sentence of death.

Rats in the West

For a long time Canada, from Winnipeg to the Rocky Mountains, was free of rats, that predatory pest of communities. Some years ago, however, they obtained a lodgment in Winnipeg and have become so plentiful there as to be a nuisance. There are indications that they are travelling westward, and the other day three pretty healthy specimens were killed in grain bin at Wapella, Sask., and some other rats of this provenance are recorded. Rats are very destructive and owing to their capacity for carrying infectious diseases, are also dangerous. They are amazingly prolific and commence to breed when about four months old. It is stated that a pair of rats can produce a progeny numbering several millions in the space of two years.

In The New North West A Desirable Location is Found at Dunblane, Sask.

Favorable District Where Every Pros- pect Pleases

A REGION IN WHICH ITS IN-
HABITANTS HAVE
ABOUNDING FAITH.

Only a few years ago some hardy men with ambition, seeking the home the Canadian government was offering for \$10, were struck by the innumerable trails emanating from every direction, worn deep by the passage of uncounted thousands of buffalo and dating before the white man had commenced destruction of the species. Water, good, pure wholesome water must be available, and following the trails many springs were found, bubbling from the ground in apparently never failing supply. The green mantle of grass sprinkled with the native flowers of every conceivable colour, reaching over the rolling surface as far as eye could see, indicated the richness of the soil. After the many, many miles of travel, with canteens of brackish, bitter tasting water, the hoped for El Dorado appeared to be found. So it proved. Today these men, still young after the hardships of pioneers, find them-

selves in a populous, prosperous, well ordered community, enjoying the fruits of their work. They do not now have to haul their produce sixty miles to market, but in Dunblane they find five well equipped elevators, stores, and excellent railway facilities. As a home to these farmers a welcome is extended. The excellent school, the social community, the hustling, enterprising business men extend their welcome. Water in abundance, and of the purest quality obtainable in any part of our country is here. A sample of Dunblane was recently sent to the provincial analyst whose report is as follows:

R. A. Minely, Esq.,

Dunblane, Sask.

Dear Sir—

Yours of the 13th inst. duly received, also the sample of water mentioned there.

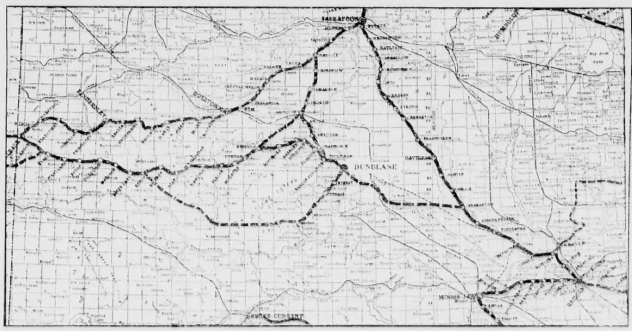

This water is clear, odorless, tasteless. It is a soft water as it contains only 10 1/2 grs. per gal. of mineral matter. The mineral constituents consist of traces of sulphate of lime, sulphate of magnesia, and common salt. This is an exceptionally good water and should be quite satisfactory for domestic purposes and live stock, and as a feed water for steam engines.

Yours sincerely,

G. M. CHARLTON,

Provincial Analyst.

DUNBLANE AND THE SURROUNDING COUNTRY

This map shows how one of the best agricultural districts of the west is situated.

The Old Reside

Wild geese of the country declare that the wild geese are two weeks later than usual this season in arriving from the south. This is said to presage a backward season.

Premier Improving

Reports from the south indicate that Sir Robert Borden is steadily improving in health. He is recuperating at Asheville, N.C.

Ontario Majority

The first division in the new legislature of Ontario took place a few days ago. The Government had a majority of 47 votes.

Calder Returns

Hon. J. A. Calder is back in his place in the House at Ottawa, apparently recovered from his recent sickness. At one time his condition gave considerable concern to his friends.

Opium Smuggling

Twenty nine of opium, valued at over \$2,000 were seized by the Calgary police a few days ago. The drug had been sent from Montreal to a local Chinese firm in a case of eggs.

Saskatchewan Divorce

James Giddings, of Regina, is claiming for a divorce from his wife, Mary Giddings, now of Winnipeg. He claims that they were married in 1910 and that his wife left him at the expiry of a year, taking their baby girl with her.

A Prisoner from the Far North

Sgt. Douglas of the Royal Canadian Mounted Police is somewhere in the Arctic regions in the wilds of Hudson Bay, bringing down for trial an Eskimau who is accused of murdering his wife.

Fishery Headquarters

It is announced that Prince Albert is to be made the fishery headquarters for the whole province of Saskatchewan.

Widening Sleights

The United Farmers of Alberta are sending out a questionnaire to all their locals in connection with the widening of sleighs to make them conform to wagon tracks. It is stated that some farmers strongly object to any change in the sleigh runners, arguing that the action of wheels on a road in winter is calculated to make sleighing difficult and unsatisfactory.

End of Session

The Alberta Legislature prorogued on Saturday of last week.

Alberta Coal for Manitoba Market

Samuel Drumheller, representing mine owners in Alberta, has been in Winnipeg recently contracting for large storage sheds to accommodate sufficient stocks of coal to supply the Manitoba market. The western operators propose to do business on such a scale and with such prompt deliveries that the Pennsylvania supply will be placed at a disadvantage.

Against Heart Publications

The Regina League is refusing to accept advertising from the Heart magazine.

Fined for Having Beaver Skins

Samuel and Edna were fined \$500 in Dawson City upon a trapper for having 32 beaver skins in his possession.

Home Rule for Scotland

A Scottish Home Rule Association has been formed, which has for its object the obtaining of Scottish control of purely Scottish affairs.

For the wholesaler and distributing warehouse, Dunblane has many advantages to offer, not only have we a remarkably fertile surrounding country, but the location of Dunblane makes it an ideal distributing point for the north, south to the Saskatchewan river, east and west to the Saskatchewan boundary. Towards the west Dunblane is the present terminus of two lines of the Canadian National Railway, which, when completed, as they will be this spring, will bring Calgary, Edmonton and other cities of Alberta in close touch with this point. Towards the east, the Canadian National Railway will, it is expected, complete their line to Aeging during the year, or the beginning of next; when this line is completed it will in all probability be the main transcontinental route, as it would be from 200 to 300 miles shorter than the present one through Saskatoon.

In these days when the merchant must needs consider the freight he has to pay on his shipments, and when the wholesaler could deliver from Dunblane to the numerous towns and villages which are within easy reach of it at a much cheaper rate than at present be done from Saskatoon and the other large centres, it will be seen that the opening of a wholesale house here holds great possibilities for the wholesaler and a look at the map should convince everyone of the advantages Dunblane has to offer.

At present real estate can be bought at a very reasonable figure and now is the time for enterprising firms to establish, whilst the opportunities are so good.

Any enquiries as to facilities, etc., will be cheerfully answered on addressing communications to H. T. Clark, Dunblane, Sask.

Well Known Station Sold

At the dispersal sale of Thos. Heggie, at Condie, near Regina, which took place last week, his well known station, Prince of Midhurst, was sold to Beatty of Trezona, for \$1,750. This is the highest price horse ever sold at a public auction in the province of Saskatchewan.

Immigration to Canada

Immigrants coming into Canada in 1919 aggregated 117,633 persons. From 1891 to the end of 1919 3,730,521 immigrants came into the country.

Medicine Hat Power

The Alberta Legislature, in the closing days of the session, gave the City of Medicine Hat power to tax rental values in that city.

School Lands for Soldiers

The Soldiers' Settlement Board of Canada has completed arrangements with the three prairie provinces, by which a considerable area of school land in the west has become available for settlement by returned soldiers.

Income Tax on Soldiers

Military pay, the six months' gratuity, and pensions, are not liable to be assessed for income tax.

Henry Ford and His Help

The Ford Motor Company announced a few days ago that owing to a shortage of raw material they would have to lay off for a time 30,000 employees of their Detroit plant.

Railway Needed

Vigorous efforts are being made by western representatives in Ottawa to have the C.P.R. construct a railway from Cory to Birch Lake in Saskatchewan as early a date as possible.

A GOPHER DRIVE

The Zella U. F. A. local held a Gopher Drive on Tuesday in that district. The farmers turned out in great shape and the gopher slaughter was enormous, gophers to the number of 510 being massacred. In the evening a celebration was held in the schoolhouse in honor of the days work and the farmers having been divided into two groups before the drive, the losing side waited on the others at supper. An old fashioned spelling match was the main event of the evening and many are the new methods of spelling according to some of those that were present.

JUTLAND W. C. T. U.

On Friday evening, June 9th, the Jutland local of the W. C. T. U. held a very successful meeting at the schoolhouse at which Mrs. McKinney, of Claresholm, provincial president, gave a splendid address on prohibi-

tion* in her very able manner. The Barnes orchestra gave several selections and there was some very good home talent. The school was well filled with an attentive audience and the ladies of the local deserve great credit in the way they served their supper of hot pork and beans, salad, jelly, lettuce sandwiches, cake and pie. We hope they will often give us as enjoyable an entertainment.

BURNSIDE LOCALS

Who said whooping cough.

The Burnside correspondent has been having a good sleep, but then there have been no wars in our midst to keep him working overtime.

The W. C. T. U. bean supper on Friday evening was well attended and Mrs. McKinney's address much enjoyed by all.

Miss Denbrooke, who has been visiting her sister, Mrs. Boulton, left on Monday for the coast.

Don't forget the U. F. A. picnic at Burnside on June 30th. There will be sports of all kinds and good prizes. The U. F. A. are offering a \$15 prize for the ball game and a \$9 prize for the junior ball game.

Quite a few from here attended the baseball game and dance at Community Hall on Wednesday evening in aid of the ball team. Everybody seemed to enjoy both.

Sunday, June 15th is U. F. A. Sunday and Rev. Bender will deliver a special address in the Jutland school. Everybody welcome.

One of Jutland's young men seems very fond of 4-iving lately, especially on the east roads. Never mind Jaunes, the longest way round is the sweetest way home.

We are glad to hear that Mrs. Ralph Edgington (nee Elva Munson) who has been ill from the after effects of the flu, is much improved in health.

The next U. F. A. meeting will be held in Burnside schoolhouse on Friday evening, June 23rd.

Grasshoppers are plentiful but so far our district seems to have suffered small damage compared to the eastern districts.

Doc Steiss passed through our burg one day last week on his way west.

The Inspector visited our school lately.

The Bancroft U. F. A. picnic is on June 28th.

Mr. John Sick who is in Calgary undergoing treatment is reported to be on the mend. We hope to see John hale and hearty in our midst before long.

Mr. Harry Pearson visited at Ed. Anderson's at Bancroft on Sunday.

Mr. John Topley is excavating for an addition to his house.

The U. F. A. are having a dance after their picnic and will furnish their own liquid refreshments. No tangle foot please.

JUTLAND

Who says it can't rain in Alberta? The Sunday evening shower freshened things up anyway and washed the dust off the grass.

Feeding grasshoppers is the order of the day, but not enough poison bait is available.

Mr. T. A. Hunter has installed a wind engine which is a great improvement to his ranch. He says it beats chasing a horse around pumping water.

Mrs. G. Hewitt says turkey raising is the best paying industry on a farm and no trouble whatever. She is quite enthusiastic over it. Who wouldn't be?

A ball game was to be played last Wednesday evening between our team and Sunny-slope but the visitors got cold feet and failed to come. The event was to have taken place at the Community Hall. As there was quite a nice crowd there and no ball game they commenced to dance which kept up till midnight. Among others present were a young couple known as Tiny and Lester De Pester.

The U. F. A. picnic will be held at Burnside school, June 30th. Another notice will appear later on. Meanwhile don't forget the date and plan to be present and enjoy yourself.

Rev. Mr. Bender is planning to hold a camp meeting in this vicinity aided by Evangelist and Mrs. Domini of Regina. The time and place is not yet known for certain but will be published later.

The W. C. T. U. meeting held in the school last Friday evening was a great success. The proceeds were near \$20. Those present report a very enjoyable time. The program was not lengthy but was excellent. Mrs. McKinney was the speaker and she sure did give some real facts and knows how to handle the temperance question. Although the hour got late we could have listened to her some time longer.

Mr. and Mrs. Harder spent part of last week at High River with Mrs. Harder's sister. They say things are looking splendid there as they have had lots of rain.

PECK--LEWIS

A very pretty wedding was celebrated in the Sieberts and Mayton Evangelical parsonage at Didsbury on June 7th, in the presence of the immediate family of Peck, when Miss Elizabeth Ann Lewis of Rocky Mountain House was united in the bonds of holy wedlock with Mr. John Robert Peck of Red Lodge, Alta., second youngest son of Mrs. Wm. Peck of Didsbury. The bride, adorned in a beautiful pale green organdie dress and carrying a bouquet of red carnations, was supported by Mrs. Albert E. Peck while the groom was supported by his brother Albert E. Peck. The flowers worn as bouquets were very beautiful. After the ceremony the young couple proceeded to their car under showers of rice and confetti and left for a joy ride. Mr. and Mrs. John R. Peck will be at home on their farm at Red Lodge after July 1st. We wish them a happy and contented life.

FEEDING TESTS AT UNIVERSITY

The first stock feeder's day to be held in Canada, was held last week at the college of agriculture, University buildings, Edmonton, when a large number of stock feeders and others interested attended the lectures given by Prof. Dowell, Prof. Lattimer, and Prof. Bowstead on results of feeding tests carried out for the past two and three years with cattle, sheep and swine. Typewritten pamphlets bearing the results of the various tests were distributed among those present and keen interest was displayed in the lectures which were of a most practical nature. Those attending the lectures were able to obtain a practical knowledge of how the tests were carried out and the consequent results. During luncheon held at the University Hotel, Geo. Hoadley, H. A. Craig, representatives of the packing industry and others commended the faculty of agriculture on the work that had been done, and urged the importance of better feeding of livestock an improvement of quality to get the fullest possible results from the market.

The feeding steers purchased last fall by the University were sold the past week on the Edmonton stock yards for very high prices. Some 70 steers were purchased in the first place at the average of \$3.22 and were sold last week at an average of \$6.72 averaging in weight about 1240 lbs. Fifty-six of them sold at 7 cents, six at 6 cents, and three at 5 cents. The marketing costs totalled 23 cents cwt. The overhead cost of feeding was not more than \$100 for the lot. Gains varied from \$17.50 per head down to \$2.50 per head on the poorer stuff.

The advisory council of scientific research of the province is making extensive preparations for work during the coming season. One party will undertake an extensive geological survey of the foothill country, to ascertain existence of coal and oil deposits. Another party will make an investigation of the iron deposits on Lake Athabasca. The work is under direction of Prof. Allen of the University.

Fur Sales Total Over Million

Total sales approximating a million and a half dollars were reported by the Canadian Fur Auction Sales Company at the conclusion of the three days' fair auction at Montreal. A record attendance of buyers marked the sales, these being present from coast to coast in Canada, from every important fur centre in the United States, whilst many English and French firms were represented. A total of 2,222 lots of furs were disposed of in twenty-four hours selling time. The fall sale will commence on September 20th.

Very chic is this dress and one that will be found to meet the general needs of midday. It can be worn to business or as a sport dress, and is a very practical model for the spring and early summer. The cape-like back adds materially to its smartness. It is of black, with Roman stripes. The hat, which is of black straw, is adorned with black quills.

Seeing Western Canada Personally Conducted Tours to the Pacific Coast

An unusual opportunity for seeing Western Canada and the Pacific Coast under most favorable conditions and at a minimum expense is afforded by the Canadian National Railway. The Company announces a personally conducted tour through the Rocky Mountains. A special train will leave Winnipeg on June 20th at 11:20 p.m., and will connect with a G.P. steamship from Prince Rupert on July 6th. Stops will be made at the following points of interest on route: Watrous, Saskatoon, Whitecourt, Edmonton, Jasper, Mt. Robson, Prince George, Kitwanga, Terrace, Prince Rupert, Vancouver, Victoria and Seattle. A choice of route for the return trip may be made. For full particulars apply to any agent of the Canadian National Railway or write to W. J. Quinn, District Passenger Agent, C.N.R., Winnipeg.

THIN BLOODED PEOPLE

Need a Tonic to Enrich the Blood and Restore the Health.

Some people have a tendency to become thin blooded, just as others have an inherited tendency to rheumatism, or to nervous prostration. The condition in which the blood becomes so thin that the whole body suffers, comes on so gradually that anyone with a natural disposition in that direction should watch the symptoms carefully. Bloodlessness, or anemia, as the medical term is, can be corrected more easily in the earlier stages than later. It begins with a tired feeling that rest does not overcome, the complexion becomes pale and breathlessness on slight exertion, such as going up stairs, is noticed.

Dr. Williams' Pink Pills are a home remedy that has been most successful in the treatment of bloodless due to thin blood. With pure air and good food these blood-enriching pills are the correct treatment which the symptoms described are noticed. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the statement of Mrs. M. Chase, of Trenton, Ont., who says: "I can highly recommend Dr. Williams' Pink Pills to all who suffer from anemia and nervous exhaustion. For three years I was nearly always troubled with headaches, and until I began taking these pills no treatment seemed to do more than to give temporary relief. I had read of what Dr. Williams' Pink Pills were doing for others and finally decided to try the medicine. I further decided to give them a fair trial and kept on taking them regularly for several months, and I am glad to say have derived permanent relief. I feel that I can safely and honestly recommend this wonderful medicine."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail, at five or six boxes for \$2.00 from The Dr. Williams' Medicine Co., Brockville, Ont.

May Return to Germany

The return of former Crown Prince William to Germany in the near future is probable.

It is understood that the ex-Kaiser's son will give up his abode on the island of Wieringen, and settle down in Germany, to live quietly as a country squire. The Berlin Government is making his return conditional on a promise that he will not engage in any political activity.

His Asthma Remedy Like It. Dr. J. B. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. None like this nor so it would not have continued its great work of relief until known throughout the world for the wonderful value Kellogg's the strongest and best of all asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefit.

ARE YOU A MOTHER?

Mrs. Dalton tells of a Well-known Doctor's Prescription that is safe for Young Mothers to take as a Tonic and Nervine because it contains no harmful ingredients.

London, Ont.—Dr. Pierce's Favorite Prescription saved my life after a long and painful illness. I was a mother of four children and I was so weak and nervous that I could not do my duty as a mother. I was so weak and nervous that I could not do my duty as a mother. I was so weak and nervous that I could not do my duty as a mother.

HEALTH BRINGS BEAUTY

Your Health is Vital to You

Battle, Ont.—I was suffering from a run-down system some time ago, was unfit to perform my duty, and was advised to try Dr. Pierce's Favorite Prescription. I tried it, took two bottles, and was restored to my natural strength. I cannot praise Dr. Pierce's medicine too highly and will be willing to write to you, one sending stamped envelope. Mrs. A. H. Bishop, R. F. No. 1, You'll soon feel better if you obtain this "Prescription" of Dr. Pierce's at your nearest drug store, in tablets or liquid, or send to Dr. Pierce's Laboratory in Cambridge, Ont., for trial kits, tablets and write for free medical advice.

A new ferry line, the longest in the world, is to be operated between England and Sweden.

It Will Relieve a Cold.—Colds are the commonest ailment of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attacks. And so it eases the inflammation, it will usually stop the cough because it causes the irritation in the throat, to stop and move it.

"THE STORE THAT NEVER DISAPPOINTS"

Calgary has been selected as the place for an immense Convention of "The Church of the Brethren" in 1923. The Convention was held at Warsaw, Ind., this week when between 25,000 and 30,000 people attended the meetings. It is stated that between 5,000 and 10,000 will attend the Calgary Convention next year.

Miss Myra Herber, who is teaching school at Alliance, received the results from her examinations at Normal this week and she was very successful, passing with honors.

AROUND THE TOWN

Continued from page 1

Miss Esther Mjølness, assistant at Campbell and Anderson's dry good store, has returned from Calgary where she was taking a course of lessons from the H. W. Gosard Co. She was very successful and has brought back with her a diploma conferring the degree of Graduate Corsetiere.

The automobile may have superseded the horse to a great extent but in a race the horse has it over the auto because he takes as much interest in it as his driver. Come in and see them next Wednesday.

Mr. Austin, the Town Secretary-Treasurer, states that he thinks the tax rate can be brought down to 110 mills this year. Last year it was 125 mills. If this can be done we should be thankful for small mercies as it was confidently expected earlier in the year that it would be even higher than last year.

A large delegation of members of St. Hilary's Chapter of the Eastern Star, Didsbury, attended the Grand Chapter meeting held at Calgary last week and some of them attended the big banquet and ball held at the Palliser hotel. Those attending were Mrs. H. Pearson, W. M., Mrs. G. Alden, W. P. M., Mrs. P. B. Reed, Mrs. E. E. Freeman, Mrs. G. Liesemer, Mrs. J. Philpison, Mrs. French, Miss Z. Liesemer, Mr. E. E. Freeman, P. W. P. and Mr. G. Liesemer. Mrs. Darlow, of Alix, was elected Worthy Grand Matron for
